Astonishing Success.

It is the duty of every person who has used Boscbee's German Syrup to let its wonderful qualities be known to their friends in curing consumption, severe coughs, croup, asthma, pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case and we consider it the duty of all druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all druggists and dealers in the United States and Canada.

Merit Will Tell.

Was never better demonstrated than when "Fryer's Abietine Remedies" were awarded diplomas at the late California State Fair at Sacramento and at the Mechanics Institute at San Francisco. W. Pinniger is agent for these celebrated "Abietine Remedies" and he offers to return your money if they do not give satisfaction. In buying, be sure the fac-simile signature of D. F. Fryer is on each, as none are genuine without it.

Acker's Blood Elixir is the only Blood Remedy guaranteed. It is a positive cure for Ulcers, Eruptions, or Syphilitic Poisoning. It purifies the whole system, and banishes all Rheumatic and Neuralgic pains. We guarantee it.

W. PINNIGER, Druggist.

An Absolute Cure.

The ORIGINAL ABETINE OINTMENT is only put up in large two-ounce tin boxes, and is an absolute cure for old sores, burns, wounds, chapped hands, and skin eruptions. Will positively cure all kinds of piles. Ask for the ORIGINAL ABETINE OINTMENT. Sold by Osburn & Shoemaker at 25 cents per box—by mail 30 cents.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by S. J. Hodgkinson & Co.

Save The Children. They are especially liable to sudden Colds, Coughs, Croup, Whooping Cough, etc. We guarantee Acker's English Remedy a positive cure. It saves hours of anxious watching.

W. PINNIGER, Druggist.

"HACKMETACK" a lasting and fragrant perfume. Price 50 cents. Sold by Osburn & Shoemaker.

Cattle Dealers Suspend.

Last Saturday night, Swan Bros., the well-known firm of livestock dealers at Cheyenne, Wyoming, consisting of Alexander H. and Thomas Swan, made an assignment of all the property of the firm and of the individual members of the firm for the benefit of their creditors, without any preference. The liabilities have not yet been accurately determined, but it is learned from the best authority that the assets of the firm will be largely in excess of the liabilities. The creditors at Cheyenne and some elsewhere heard from, have expressed a desire that every indulgence should be given to the firm in the adjustment of their large business.

The assignment is in no way connected with the business of the Swan Land and Cattle Company and will involve no other than those mentioned. Thomas Swan himself stated that the suspension is in no way due to his large cattle interests in Wyoming, which are in the most flourishing condition. The failure will in no way affect the cattle interests of Wyoming, inasmuch as the firm are not cattle owners. They were heavy operators in stock interests, and might properly be called cattle brokers. A. H. Swan was Vice-President of the First National Bank of Cheyenne, and an energetic, vigorous and plucky man of business, who is held in the highest esteem by the people of Wyoming.

THE KING OF CONSUMPTION

Home Testimony.

Gilmore's Aromatic Wine has been produced at Pavilion, Genesee Co., N. Y., for fifteen years past. Batavia is the largest town in the county, and the demand there has steadily increased every year. It was first endorsed by the Genesee Co. Medical Society, and a number of leading physicians used it in their practice. A large demand at once sprung up for it and the druggists were compelled to keep it in stock. The sales in Batavia are now sixteen hundred bottles a year at retail, and the goods are ordered by the gross. No other remedy has half that sale in the town. It takes a medicine of first-class merit to achieve such a reputation at home. Agent for Reno, W. Pinniger.

Seemingly Eradicated.

With repeated and powerful doses of quinine chills and fever, in some of its various forms, springs into active existence again, often without the slightest apparent provocation. The smoldering embers of this obstinate and re-occurring malady, no less than to subdue it when it rages fiercely in the system. Hostett's Stomach Bitters is all sufficient. When every resource of the pharmacopoeia has been exhausted against it in vain, the Bitters conquer it—will remove every lingering vestige of it. Nay, more, the bitters will protect those brought within the influence of the atmospheric poison that begets malarial disease, from its attacks. Disorders of the stomach, liver and bowels are among the complaints to be apprehended from the use of miasmatic tainted water. These are well cured and prevented by the Bitters. Rheumatism, constipation and renal complaints yield to its action.

Ladies

In delicate health and all who suffer from habitual constipation, will find the pleasant California liquid fruit remedy, Syrup of Figs, more easily taken, and more beneficial in effects than any other remedy. It acts promptly yet gently on the bowels, kidneys, liver and stomach, and does not sicken or debilitate. For sale by Wm. Pinniger, Reno, Nevada.

An End to Bone Wrapping.

Edward Shephard, of Harrisburg, Ill., says: "Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity know it. Have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used, instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve, and my leg is now sound and well. I feel like a new man. Sold 150 cents a bottle, and Bucklen's Arnica Salve at 25 cents per box by S. J. Hodgkinson & Co's."

"Read me for my Cause, and be patient that ye may read."—SHAKESPEARE

THE GREATEST STUDY OF Mankind is Man.

And who e'er his wondrous frame doth scan, ponder and devise to cure an ill, whether by device, fruit or pill, an equal benefactor is he; and we haste, the inventor of a Cathartic of delicious taste, to do him honor. Who remembers not how the distressed mother, her child's untimely trial to smother, that she insist not the horrid dose be taken, the remembrance e'en now does nausea awaken, and fond father, to be witness of his child's torture, would rather pay high price, if money could purchase Cathartics. We have it now! And great Dr. PRATT's name, appears upon the scroll of Esculapian fame, for after long study what would suit, has hit upon *delicious fruit* to cure our ill. Away at once with draughts and pills; for whether it be indigestion, liver complaint or constipation, or any disease to which flesh is heir, he here with pride does boldly declare, and on the assertion will wager big, that it can be cured by a

GROCERIES AND PROVISIONS

I. N. BAKELAND, successor to Painter & Reilly, keeps a full line of FAMILY GROCERIES and FRESH VEGETABLES.

Delivered at residences free of charge.

So much has been said, and truthfully too, about the superior qualities of Nevada soil that it has attracted more or less attention all over the coast. These sayings will not be forgotten, and no doubt many of those who have perused such articles and who are in search of homes will visit our State Fair and satisfy themselves as to the truth of the matter. This being the case every effort should be made to insure a grand display this Fall. It is the duty of every person who feels an interest in the prosperity of our commonwealth to contribute to the exposition and make it as large and attractive as possible. The effect of a varied and choice display of our products will be magical, and will accomplish much good. Everything in the shape of grain and vegetables will be regarded with much interest, and will advertise the localities that produced them. A full account of all the products on exhibition will be written up, published and scattered broadcast over the land, and in view of this fact it is important that every agricultural district in the State should be represented. We can make a fine showing if proper interest is taken in the matter. Our soil and climate will do their part if we will do ours.

So far as the hearing of evidence is concerned, another chapter in the history of the Nevada Insane Asylum is closed. The charges that were preferred against Dr. Bishop were of the most serious nature, and the investigation of them has been watched with deep interest. Here it has been the main topic of conversation. Dr. Bishop was generally regarded as the most important witness for the defense, and his hearing was looked forward to with great interest. He took the stand yesterday afternoon and ended the testimony in the case. The decision of the case now rests with the Board. What it will be can only be conjectured.

A curious example of some people's ideas is found in the editorial comments of the New York Herald on the closing of the saloons in that city on Sunday. After describing the hermetical condition of the drinking places there, it asserts: "New Jersey, however, was in a blaze of glory," and an examination shows that this journalistic idea makes "glory" consist of the ability to fill up on beer and whisky to your heart's content, as long as you have the money to pay for it.

We will probably hear of some bald-headed man in Oregon being sent to his long home by parties in search of Peter Olsen. A man said to resemble him has been seen in Portland. If that man will listen to sensible advice, he will make what arrangements he considers necessary and step out quietly and kill himself. He will only save those on Olsen's trail the trouble.

Sam Small told his Minneapolis congregation that if they paid \$4 to bear Bernhardt they would be damned. The statement was not particularly original. A good many men in various cities have declared that they would be damned if they paid that price. But when the speculators came down to \$3, they were on hand.

TO-DAY'S NEWS.

The Speedy Execution of Mexican Train Wreckers.

A JUSTICE RECOMMENDED.

General Rosecrans to Receive an Appointment.

SUIT AGAINST UNCLE SAM.

Sullivan Has Signed an Agreement to Fight Kilrain.

[PRESS DISPATCHES TO THE GAZETTE]

Mexican Train Wreckers Shot.

St. Louis, May 18. A special from the City of Mexico says: A week ago a train on the Mexican railroad ran over and killed a Mexican near Patzcuaro. The friends of the dead man undertook to retaliate, and put a big rock on the curve. The engine of the passenger train struck it, and an American engineer was injured, and a Mexican fireman killed. The Chief Politico sent a squad of Mexican gendarmes with instructions to bring in every person suspected of any complicity whatever. Thirty-three arrests were made. The investigation resulted in selecting three victims, and sentence was immediately passed. Shortly after sunrise yesterday morning, they were marched to the scene of the disaster and stood up before an adobe wall, and shot by a file of soldiers. The corpses lay for some time where they fell, as a warning against more wrecking, and were buried near the scene of the wreck.

News comes from Mazatlan, that two Americans assassinated Enrique Nassau, manager of the Hacienda Ad Tomil. The Americans were placed under arrest, and conducted under a military escort to the city, where they are awaiting trial.

Transcontinental Railroad Lines Reach an Agreement.

CHICAGO, May 18. The officials of the transcontinental railroads had a meeting here to-day for the purpose of agreeing upon a tariff schedule. A unanimous vote has been recorded in favor of the contemplated transcontinental association and now nothing remains but a uniform system of charges. This includes both freight and passenger rates, and absolutely abolishes any future indiscriminate cutting of rates over the western roads. The agreement provides that one company cannot make a reduction unless the rest do likewise.

Texas Recommends a Judge.

AUSTIN, Texas, May 18. The members of the Travis County Bar Association and other friends of Chief Justice Amos H. Willie, to-day forwarded to President Cleveland a formal application, or suggestion, of Judge Willie's fitness for the place on the Supreme Bench of the United States, made vacant by the death of Justice Woods. The Governor and all State officials, and many citizens have written to the President on the subject.

Sullivan to Fight Kilrain.

NEW YORK, May 18. A Rochester correspondent of a sporting paper has been notified on behalf of John L. Sullivan and Pat Sheedy, that Sullivan has agreed to fight Jake Kilrain for \$5,000. The fight is to take place in some park or public building and the winner to take two-thirds of the gate receipts, and not more than six rounds can be fought.

7,000 Workmen Locked Out.

HAYVERHILL, Mass., May 17. Many of the association factories that are running to-day will not open to-morrow, swelling the number of lockouts to sixty-five shops; throwing out of employment 7,000 persons. The masters are at work and will probably continue as their price list has not been cut down. The manufacturers hope to secure help sufficient to enable them to open.

An Injunction on the Western Union.

NEW YORK, May 18. Colonel J. C. Ruff has applied for an injunction against the Western Union Telegraph Company to prevent the issue of bonds in which the guaranteed obligations of the company are to be funded, and asks to have the extra issue of 1,200,000 shares of new stock, to take up the dividend scrip declared illegal.

Janaushek Severely Injured.

NEW YORK, R. I., May 18. Madam Janaushek last night fell down a flight of steps, injuring her so severely as to necessitate the abandonment of all her engagements for the rest of the season.

Rosecrans to Receive an Appointment.

CHICAGO, May 18. A Washington special says it is understood that General Rosecrans is to be appointed Chief of the Coast Survey.

Blaine Will Sail for Europe.

NEW YORK, May 18. A special from Augusta, Maine, says that Blaine will sail for Europe early next month.

Uncle Sam Sued.

PHILADELPHIA, May 18. Miss Jane E. Hall, of Montgomery & Co., and her sister have instituted

suit to recover \$4,000,000 from the United States Government. The ladies claim to be lineal descendants of Jacob De Haven, a wealthy Frenchman, who, it is claimed, in 1777 loaned the Colonial Government half a million francs with which to pay the troops, and during the latter years of the struggle contributed further money. During Washington's first administration Congress allowed his claims, but there was no surplus at the time and the claimant died before he received a penny.

Sudden Illness of Ben Perley Poore.

WASHINGTON, May 17. [Major Ben Perley Poore was taken seriously ill this afternoon in his committee-room at the Capitol. The attack was the result of overwork and heat. The Major was overcome suddenly by sickness of the stomach and quietly fainted away. Three physicians were soon in attendance, and in a few moments the patient was restored to consciousness. When his strength was partially regained he was removed to his room at the Ebbitt House, where he is resting quietly. It is hoped that a few days of perfect rest will restore the Major to his usual good health.

A Senator's Wife Dead.

WASHINGTON, May 18. Mary Montgomery Gibson, wife of United States Senator Gibson, died last evening. Major Ben Perley Poore is more comfortable this morning.

WESTERN DISPATCHES

Transcontinental Boycott.

SAN FRANCISCO, May 17. It is said here that the transcontinental roads will join in a boycott against American connections with the Canadian Pacific road, because they are carrying freight which comes to them by the Canadian Pacific at a lower rate pro rata than that which comes to them from the Pacific Coast roads, though the tonnage offered by the latter is much larger than that of the Canadian Pacific. The roads used by the Canadian Pacific in entering the territory of the American overland lines are the St. Paul, Minneapolis and Manitoba, St. Paul and Omaha, and Kansas City and St. Joseph.

Death of a Promising Young Man.

SAN FRANCISCO, May 17. David Regensburger, Assistant District Attorney of Judge Murphy's court, met with a fearful accident at the Rossmore House, Stockton street, this afternoon at 4 o'clock. He was at the door of the elevator shaft and fell to the bottom. Dr. Whitney was called and announced that Regensburger had broken his neck and could not live more than a few moments. Regensburger was a bright and popular young lawyer, and he lately distinguished himself in the Golden Gate murder trial.

Slaughter House Destroyed.

SAN FRANCISCO, May 18. A fire which started in Michelson, Roth & Co's slaughter house at South San Francisco late last night destroyed nearly two entire squares, including some of the largest slaughter houses and packing establishments. A large number of sheep, hogs and horses were burned to death. Losses are variously estimated at from \$50,000 to \$100,000.

FOREIGN DISPATCHES

France Protests Against the Canadian Fishery.

PARIS, May 17. A deputation of fishermen from Normandy and Breton ports called upon Foreign Minister Florens yesterday and asked him to protest against the Newfoundland Fishery bill, stopping the sale of bait to Frenchmen. M. Florens promised to bring the matter before the Chamber of Deputies.

Officials Exonerated.

LONDON, May 18. The Royal commission appointed to investigate the charges against the War Office for jobbery in making contracts, and in purchasing defective weapons, has prepared a report which exonerates the officials individually, but advises numerous administrative changes.

France After a New Cabinet.

PARIS, May 18. President Grevy will to-day consult with the Presidents of the Chamber of Deputies and the Senate for the formation of a Cabinet, and as to the advisability of retaining General Boulanger as Minister of War.

Portugal Buying Rifles.

LISBON, May 18. The Portuguese Government has ordered 40,000 repeating rifles from the arms factory at St. Cyr, Austria.

Arrangements for the Fourth.

The Committee of Arrangements on the Fourth of July celebration undertook to have a meeting, but failed to have a quorum, and those present decided to call a meeting of the citizens of Reno to-morrow evening at 8 o'clock at Armory Hall, for the purpose of seeing whether we will have a celebration or not. We hope the citizens will turn out and see if we cannot celebrate the coming glorious Fourth in a manner creditable to the town of Reno. Per order

A CHILD'S SKIN.

Ears and Scalp covered with Eczematous Scabs and Sores Cured by Cuticura.

MY LITTLE SON, AGED EIGHT years, has been afflicted with Eczema of the scalp, and at times a great portion of the body ever since he was two years old. It began in his ears and extended to his scalp which became covered with scabs and sores, and from which a sticky fluid poured out, causing intense itching and distress, and leaving his hair matted and lifeless. Underneath these scabs the skin was raw, like a piece of beefsteak. Gradually the hair came out and was destroyed, until but a small patch was left at the back of the head. My friends in Peabody know how my little boy has suffered. At night he would scratch his head until his pillow was covered with blood. I used to tie his hands behind him, and in many ways tried to prevent his scratching; but it was no use, he would scratch. I took him to the hospital and to the best physicians in Peabody without success. About this time some friends who had been cured by the CUTICURA REMEDY prevailed upon me to try them. I began to use them on the 15th of January last. In seven months every particle of the disease was removed. Not a spot or scab remained on his scalp to tell the story of his suffering. His hair has returned, and is thick and strong, and his scalp as sweet and clean as any child's in the world. I can not say enough to express my gratitude for this wonderful cure by the CUTICURA REMEDY and wish all similarly afflicted to know that my statement is true and without exaggeration.

CHARLES MCKAY, Peabody, Mass. Oct 6, 1885. I have seen Mr. McKay's boy who was badly affected with Eczema. He was a pitiful sight to look at. I know that he has tried our best physicians, and did all a father could do for his suffering child, but availed nothing. I know that the statements he has made you as regards the curing of his boy by your CUTICURA REMEDY are true in every particular.

WILLIAM J. MCCARTHY, 33 Foster St., Peabody, Mass. Sold everywhere. Price: CUTICURA, 50 cents; CUTICURA SOAP, 25 cents; CUTICURA REMEDY, 1.00. Prepared by FOSTER DRUG AND CHEMICAL CO., Boston.

ASYLUM INVESTIGATION.

DR. BISHOP ON THE WITNESS STAND.

A Lengthy Synopsis of His Testimony—Why and Under What Circumstances He Says the Battery Was Applied to Certain Patients.

The investigation into the charges preferred against Dr. Bishop was resumed yesterday afternoon at half-past 1 o'clock. The decision of a former investigation of charges preferred against Dr. Bishop was read but objected to by Colonel Lindsay as evidence. The objection was sustained.

Dr. Bishop was recalled and testified as follows: I began the practice of medicine in 1855; have practiced on this coast since 1864; I graduated in Cincinnati in 1870, at the Physio-Medical Institute; have a diploma; practiced medicine 15 years before I graduated; have been in charge of the Asylum four years; was appointed by the Board of Commissioners; have looked after everything pertaining to the institution; the Board of Commissioners have exclusive control of the Asylum; am only a subordinate; my position depends on the pleasure of the Board; the Commissioners have furnished me with all of the necessities I demanded; they have paid close attention to matters here; I have no power to make contracts; the Board is informed of what is wanted here; the institution has been supplied with the best of food and plenty of clothing; there is plenty of room in the building; the ventilation is good; the building is well heated; have omitted nothing that would contribute to the comforts of the patients; this institution is equal to any other on earth; the per cent. of cures here has been far ahead of that of similar institutions in the world; the comparison between this institution and others is in favor of this one. There were five persons returned to the Asylum after I took charge of it; they were discharged by Dr. Dawson as cured; I could discharge many and take the chances of their return; have used tonics, baths, electricity, etc., in my treatment; went through the institution every day and saw the attendants and patients; treated my patients with electricity; applied it with a battery; it is an interrupted battery; was afraid to use the large or continuous battery; I discarded the old battery because it was too powerful; have been careful in the application of electricity; it has nearly always benefited those who were wild; on some others it was of no avail; the battery is interruptive; I apply one electrode to the part where the disease is located; it acts as a stimulant; one man was a furious and wild man; one evening I had him held and applied the battery to him; applied it to nearly every portion of his body; never applied it to him but once, and it benefited him; he was cured; I used it on one who was stupid; it stirred him up and in a few weeks he was discharged; a Chinaman was subjected to an application of electricity; he is now almost sane; would be all right if he would not touch opium; I used it on one man who was guilty of masturbation; I took attendants with me, and applied the electricity inside of his pantaloons; have done the same thing in several instances; it was beneficial; it took three men to hold one man who was treated to electricity, and it was applied inside of his pantaloons; suppose that the irritation there could be reduced by electricity; have tried everything to prevent masturbation, but it failed; this is why I tried electricity; have authority for the treatment. [Authorities were cited and admitted as evidence in the case. It was shown that the application of electricity to the privates was of great benefit in cases of onanism.] There is some pain attached to the application of electricity; there is no acute pain; never administered it to any patient as a punishment; always as a curative. [Many names were read to whom the battery was applied.] Never applied it to any of them as a punishment; never punished any inmate in this institution in any manner; have no recollection of the straps being put on McGrath; never recollect seeing Indian Dick on his feet; he knew nothing; he was a general paralytic; he was sent to the reservation; gave him more treatment than the others for three weeks; he was never mistreated to my knowledge; he was made comfortable; he was kept on the ground floor because it was difficult to bring him up stairs; the place where he was kept was clean; I applied the battery to him 20 or 30 times; it did him no good; there was no change in him; he was no different when he left here; remember Martinson; used bath on him; put straps on him to keep him from destroying property; never applied the battery longer than I thought it was good for the patient; at one time I turned the hose on Martinson; electricity and baths are recommended for the treatment of the insane; it is practiced in all institutions; [the Doctor explained the effect of hot and cold baths:] I applied the battery to Carpenter; it benefited him; Antoine was wild; was applying the battery to Carmen; Antoine was at the time in a nervous condition and I put the battery to him, but not for punishment; never used abusive language to any inmates in the Asylum; knew Sanborn and Loomis; never told anyone to make an inmate work; never told Campbell to choke Sanborn; never knew that he was choked; would have discharged Campbell if I had known he choked Sanborn; used croton oil on patients to prevent masturbation; it is used as a preventive; there was not a word of truth in Ross' statement; know Mrs. King and Mrs. Johnson; Mrs. Johnson was very nervous, and I turned the battery on her; I put the electrodes in her hand; she did not make any fuss; it was to quiet her nerves; did not want her to work; did not know that she voided her urine; no force was used; I have patients held when administering electricity; Mrs. Johnson was not held on the floor; Mason is a periodical maniac; I bathed him; had to hold him in the tub; I kept a stream of cold water on his head; he was wiped dry after the bath and put to bed; never had a thought of punishing him; there was not sufficient pressure on the hose to hurt anyone; the pressure was about 40 feet; the water was cool; let Dave go to Mr. Alt's; Alt gave him a home and I discharged him; he is well provided for; I applied the battery a number of times to Sophia for curative purposes; Sam had paralysis; used the battery on him three or four times; he was a great masturbator; electricity did him no good; never heard that Livingston's limbs were gnawed by rats; saw him every day; he died while I was in San Francisco; knew George; he was hurt on the left side of the head; I dressed his wound; he was a general paralytic; he was a confirmed masturbator; think I saw him three times a day; every attention was paid to him; held an autopsy at his death; his skull was sound; his entire brain was softened; when my men were at work on my ranch I would occasionally use State supplies; they were all replaced; everything taken by me was returned to the State storehouse; I might have used in this way \$15 or \$20 worth of State goods; just as good an article was returned; State employees have worked for me; I paid them myself out of my own pocket; the State never paid them a cent for work done for me; the State never compensated me for the use of my horses or other property; have always bought supplies from friends when I could buy from them; when I could buy from others; never paid them more than the regular price; Cooper was discharged from the Asylum for knocking down a patient with a spittoon; know Ross; he was an attendant; he was discharged for choking an old man and stamping him with his feet; Loomis was discharged for putting up a picture of a skull and cross-bones in ward G; that is the "death ward;" [the design was exhibited:] I told him that a man who would do that was not fit for an attendant, and told him to leave; my boys never destroyed any harness; all the harness belonging to the State is here; there were about 20 lambs on the Asylum grounds at different times; my boys bought some of the milk to feed them; they used no State milk at the Asylum; my own cow was used by the State for one year; I received no compensation from the State for her.

Cross-examined—I have been Superintendent here about four years; practiced medicine for 15 years; before I graduated; I practiced in Illinois; the institution I graduated at in Cincinnati has been removed to Chicago; never studied the use of electricity until I came to the Asylum; used the Davis & Kidder battery because I was told it was the safest; think it is the best battery to use; cannot produce a continuous galvanic current with the Davis & Kidder battery; think this battery is far more beneficial than the other used here; have had no importance to deal with here; it is not dangerous to apply electricity to all parts of the system; have a deposit of State money in the First National Bank here; have probably \$1,500 or \$1,600 there at this time.

The cross-examination of Dr. Bishop was devoted mainly to scientific matters pertaining to the use of medicine and electricity, and was uninteresting. His testimony closed the case, which was submitted to the Board by unanimous consent of the counsel without argument.

An Important Question.

A complete system of sewerage is indispensable in any city, and it is extremely important that the people of Reno should probe this matter and glean all the information of a valuable nature pertaining to sewers. We have made a start but it is only a marker compared with the system necessary to insure proper drainage for our city. Col. George Waring, who is thoroughly conversant with the most improved manner of sewerage and whose practical knowledge and advice has been of incalculable value in the construction of sewers in many instances, will visit Reno on Thursday and efforts are being made to have him lecture on the subject of sewers on Thursday evening. He has, perhaps, given as much or more study to this question than any man on this coast, and a lecture from him would be instructive and valuable to our citizens. There will be no charge for admission, the entire expense having been assured by a prominent citizen of Reno who feels the importance attached to this question here. Our people should give Mr. Waring a hearty welcome and show their appreciation for his kindness, and also their interest in this matter, by giving him a crowded house. The attention of our business men is called to this matter particularly. Every dollar that is applied to the building of our sewers should be applied advantageously and not used up in fruitless experiments. Mr. Waring can give us information that will protect against loss and aid us materially in the adoption and construction of sewerage that will never have to be changed. We hope our citizens will turn out to a man and hear the gentleman.

The Stock Market.

The upward tendency of mining stocks is not unexpected. Better prices have been anticipated for some time, and stock operators who were posted have taken advantage of the situation. Locality has advanced the value of some stocks, while others are going up on merit. Those who have an opportunity of knowing say that much brighter days are in store for the Comstock, and that mining stocks will be lively for some time to come. Those who got in at low figures are in high spirits and can almost feel the fortune they hope soon to receive.

Election of Officers.

The Directors of the Nevada-California Loan and Investment Company have met and elected the following officers for the ensuing six months: Evan Williams, of the Bullion and Exchange Bank of Carson, President; Chas. T. Bender, of the First National Bank of Reno, Vice-President and General Manager; C. S. Preble, Secretary. The Directors are Evan Williams, C. T. Bender, G. W. Mapes, W. O. H. Martin, D. A. Bender, R. L. Fulton and Martin E. Ward.

The company will be able to commence business on July 1st.

Found Dead.

The dead body of a man named Lewis Hayes was found near the mouth of Six-mile Canyon in Storey county. There was a bullet hole in the side of his head and a revolver was found close to the body, which indicates that he committed suicide. In his pocket was a certificate for 100 shares of Gould & Curry stock.

A Bad Mistake.

An Idaho physician administered strychnine instead of ipecac to a Lewiston lady, and did not discover his mistake until it was too late to save her life. Idaho ought to annex a few medical men who can at least tell the difference between salt and sugar.

A CYCLONE!

Nothing has created so much talk as Breuner's elegant and immense line of Bedroom and Parlor Furniture. Suites for two, three, four, five and six hundred dollars. We can furnish you with a suite—the finest in the land or the cheapest to be had. Our trade has demanded that we carry the richest lines, and to-day we are shipping goods to San Francisco, Oakland and other parts of the State. San Francisco merchants cannot compete with us, as their store rents and other expenses are enormously high. Everybody admits that we sell the cheapest, and everyone who visits our stores says our assortment is as elegant as it is large.

If you desire anything in our line and cannot visit our stores, write us stating articles you want and will send you photographs and prices, and give you the same satisfaction as if you were selecting in our stores. Send for photograph of our \$18 00 bedroom suite.
